

1.4.2 Feedback process of the Institution may be classified as follows

Option A) Feedback collected, analysed and action have been taken and feedback available on website

Response

1) Alumni

50.6% students are employed and about more than half students feel that the syllabus taught to them is relevant for their present job. From the feedback of alumni, we noticed that besides the subject students learn various qualities like sincerity, punctuality, leadership, team work, responsibility and integrity.

2) Employers

From the feedback of employers of various fields, we could come to know about the performance of our students. Our students are doing very good work in their organization. Our students are having good skill of work and showing good spirit of team work.

3) Faculty

Feedback of faculty expresses that overall discipline of the college is excellent. The feedback also expresses that the efficacy of online mode of teaching is need to be improved.

4) Students

Student's feedback is collected randomly from various classes and analyzed. We could understand the demand of offline classes from the majority of the students. There were few suggestions about practicals and conduction of campus interview.

Action taken report

- 1) Offline practicals have been conducted according to the suggestions given by the students.
- 2) Schedule of lectures is informed to students well in advance.
- 3) Campus interview will begin once again after the covid restrictions are relaxed.

Since the covid restrictions continued for a considerable period of time we decided to send interested and needy students for interviews to the concerned industries. Waiting for on campus placement activities would have delayed the process. In this process 11 students were selected.
