

1.4.2

Feed back Report

- 1. Students** – Students feel that the syllabus was challenging. Most of the students found that conceptual understanding manageable. Almost 85-100% syllabus is covered in the class. Students found library material to be adequate but difficult to get e- educational sources. Teachers clearly communicate with the students and are thoroughly prepared for the class. Even out of the class teachers are easily accessible. Students are made aware of Pos and Cos through notices displayed on the noticeboard, through lectures and also to some extent through prospectus. Most of the students feel that the course has developed the expected outcomes fully.
- 2. Teachers-** Feedback of faculty is collected from all the departments. It is observed that most of the faculty members are satisfied by library resources and services. The books available in the library have been proved to be useful. The infrastructure of the college and the maintenance of the same is appropriate for getting good education and smooth functioning. Teachers believe that campus is safe.
- 3. Employers-** Feedback from employers shows that students from our institution are performing their best at workplace. They are very efficient, having excellent skill of work, punctual and show good spirit of teamwork.
- 4. Alumni-**Majority of our past students are working and few are still pursuing education. They are utilizing skill and knowledge gained from college at their workplace very efficiently and they are happy to send their close ones to the college for education.

Action taken:

Teachers suggested for more classrooms. With reference to that suggestion upper floor is under construction. Suggestions for more lights and fans are fulfilled.
