

Report for Saturday Katta

28th August 2021,

The Saturday Katta for the month of August 2021 was conducted on 28th August. The speakers were from the second year and third year Biotechnology department. The topics for the session were quite interesting starting from the topic of dreams presented by Miss.Sayuri Kini. Her presentation started from the meaning of dreams to fast facts about dreams and different types of dreams. The next topic was rising price of petrol presented by Mr. Jatin Thakkur. He had chosen a trendy topic on the petrol prices which is nowadays quite expensive. He discussed about causes of high petrol prices and gave a social message for it that is "SAVE FUEL, SAVE ENVIRONMENT". Our next contestant was Miss. Renu Kushwaha with the topic of self-confidence. Self-confidence is quite important for building our personality and she shared a detailed opinion about it and informed us about the types of self-confidence and its benefits. Her presentation was more effective due to her self-confidence of explaining. Nowadays due to the coronavirus and lockdown, people are being nostalgic about their pre-corona life so to explain that feeling, Miss.Sharda Jha presented the topic Nostalgia effect. The session ended with the topic Mystery of the glowing sea presented by Miss.Siddhi Raut. She informed us about the phenomena of bioluminescence and different kind of living organisms that perform bioluminescence for different purposes.

This month's session was full of knowledge and facts rather than just book knowledge. Indeed all the students found the topics quite relatable and interesting.

Report of Saturday Katta

19 December 2021,

The Saturday Katta for the month of December was held on 19th of December on Sunday. It was the first Katta for first year students so Eesarah Kazi from second year initiated the Katta by addressing the first year students about the Katta.

The participants were from S.Y. and T.Y. students. The topics of this session varied from different field like Sidhi Raut from T.Y. spoke on Xenobots the latest discovery in robotics and synthetic biology , Vaishali Rajput also from T.Y gave us an idea about the real life career choice were many of the students share their opinion, Namrata Singh talked about a social issue which exists from years in our country specially i.e. Female foeticide where also students shared their views and their thoughts, the next participant was Amit from S.Y. who acknowledged us with his topic- Adult education and lastly Disha Mothe from S.Y. talked about the importance of meditation so the topics spread from new discoveries to career advice to social talks and also health.

Though the audience were not maximum considering it was a Sunday morning it was an interactive session organized by Ravda and Eesarah. Also there was a short discussion on the movies where many students share there views.

This Saturday Katta ended with a lots of interactive talks and knowledge.

Report of Saturday Katta (February 2022)

The Saturday Katta for the month of February 2022 was organized offline on 26 th February 2022, since the colleges have started offline. It began at 10:00 am. Before starting of the session all the students from TY, SY and FY introduced themselves one by one.

The participants were from all the three classes. The first speaker was Mr. Anurag Mishra from SY Biotech and his topic was Environment and Pollution. The second speaker was Mr. Sunny Chauhan (S.Y.) who spoke on the topic Medical Biotechnology. To make the session a little more interactive Ms. Eesarah conducted a slang quiz. After that, Ms. Kirti Surti from F.Y. Biotech delivered a speech on Marketing with lots of enthusiasm. The last participant was from TY, Ms. Jyoti Maurya who gave us information about Corpse Museum.

Though it was the first offline katta, the enthusiasm among the audience was good and it was indeed an interactive session.
