Give three observation / suggestions to improve the overall teaching - learning experience in your institution

135 responses

No

Good

Good

.

-

Ok

No suggestions

Nice

Very good

Not at all

Confidence level is to be increased
Active learning should be increased
Capability to make boring study to intersting be increased

1.Behaves well with students
2.They teach we'll 3.Good guidance

Yes

...

Good 👍

Good 👍

Timing of class, more practical.

Good

Lectures to be taken properly.
Extracurricular activities should be held.
Presentation should be there for growing skills of the students....

Nice 👍

No comments

Give two way interaction

Well good.

Nothing to be improved

Complete the syllabus First
Take lecture regularly
Exam should be postpone (TYB B.COM sem 6 2023)

Teachers should be more strict towards the students who not show interest in class

Almost good

good

In commerce department you can add more classes and more qualified teachers to focus on next generation...my experience is very poor I was told in past to principal and commerce department but I am unhappy with the response....
Syllabus is not completed and holiday is more than lecture..
In science department college provided two teachers for 1 subject
And
Commerce teachers teaches more than 2 subject
Computer system and application
Lecture is still pending
In last 3-4 months.....
It is my humble request to my principal that you think to prevent this situation from happening in the future 🙏

Change in timing, minimum 3 to 4 hour's

We don't have canteen facilities

Teachers are very friendly with students
Teachers are good in teaching
Teachers are strict sometimes it's good for us..

BEST PERFORMANCE

Do hard work in any situation....

It was good

Classroom fan was not working which was the main issue of distraction.. Hence students cannot focus on teacher's teaching

Vast syllabus made students difficulty in learning on time.. As teachers need to finish portion on time

Practicals were best but department should bring those instruments which are required for better education and improving practical knowledge of students

Effective,and valuables

Teaching is best but not complete syllabus

The digital and visual learning along with theoretical will help students more to relate the things and overall very good

.....

Innovative techniques
Active participation
Cope up with students

Consulting and technology

Very strong teaching

Rahul sir

Nothing teaching is good

Doing more practicals then theory

Cover whole syllabus, conduct online class as well for some ch !

1 classes time should be more
2 college time should be perfect
3 teacher must be present at lecture at right time

My suggestion is that they should use ICT board rather than using normal black board.

Well teaching

The teacher needs to communicate with children .There should be good environment .

good

The should select good lecturers or professor

It's all good, need not much improvement

1.Use better graphics and visual media to engage students well.
2.Try to reach every student and ask for their doubts.
3.Make teaching a two way interaction.

Teacher should take initiative for students to learn and take care of them

Nothing to say

Start testing the teachers
Increase timing
Experienced teachers

😊 Good 👍

1) Use better graphics and visual media to engage students well.
2) Try to reach every student and ask for their doubts.
3) Make teaching a two way interaction.

Very well

1) complete portion should provided.2) complete knowledge should be given.

Say in good way to students

Need for prepare

Yes this institution is good for learning

1.to emphasis more on practicality rather than bookish knowledge
2.long lectures to be conducted

Well and good

They are teaching well

No suggestions

Teacher should not be partial
They should give more examples to understand a topic and should be positive

To solve all exercise
To explain topics thoroughly
To solve map questions

To take lectures on time
Should complete their portion on time
Should have some extracurricular activities

Not good condition, teachers and college rules..

Overall best

Good practice amd encourages students
Encourage cooperative learning

Very good, it's very nice but still need to improve a bit

Multimedia while teaching

Active participation

Only teachers Read The Books and Over Their lectures
Only Accounts is the Subject In Which I Understand
Overall All Theory subjects and Maths are Totally Done Copy and Paste By Textbook
No Interaction between students and Teachers
No Strictness Showed Towards Mischievous students while Teaching
More Concept Clarity should be Provided by the teachers
Only Reading is Not the Teaching

Everything is going good

1. The teaching staff is excellent
2. College should conduct some more extra curricular activities
3. Sports activities should be given some recognition

Teachers should also explain how the subject or unit can actually be used professionally.
More concentrations on carrier guidance about the topic of learning

There Should Be More Lectures So That The Syllabus Be Completed Before Time And The Time Which Is Left Can Be Used For Revision And There Should Be More Time Given To Students As A Break As Continuous Lecture May Be Boring The Break Given Is Short And There Is Not Enough Time To Eat Their Lunches And The Topic Which Is Taught In The Classroom Should Be Done Practically So That The Students Can Understand Easily Their Principle And Their Uses And In A Fun And A Interactive Manner By Using Real Life Example So That The Concepts Are Clear to Students

Encourage the student for futher study

Yas

Teaching should be through a SMARTBOARD sometimes for better understanding. Teacher should give aesthetic examples. While teaching live equipment can highly effect students and can help them for better understanding. Lab equipments should be modified.

Teachers should explain in native languages with examples for better understandings draw diagrams n charts when necessary
Teachers should take some test at every intervals for making the students learn the topic

easily

Hoy

Teaching schedule should be increased instead of 1 hour 4-5 hours should be thought.
Teachers should conduct regular classes for all the subjects.
Teachers should conduct Online classes to complete the syllabus on time.

Teaching, Behaviour

To improve teachers teaching style or behaviour

Best experience in my life my teacher is very good

NA

Daily 3-4 lecture
Compulsary test
Experienced teacher
Maintain discipline

Regular classes, encourage students,proper construction of college

All good teaching

T

Nothing

1 syllabus should be completed on time
2 strict then .in any case

Suggestion i would like to give is that
1. The teachers should take regular class.
2. They should make arrangements of different activities,so that students can learn and understand more .
3. There should be regular 4,5 lectures ,so that the students who are depend on only college they can learn.
