Dear Final Year Students,

Hope you are all doing well and are prepared for the online examinations.

Please follow carefully all the instructions given to you while appearing for the examinations.

- Students should have a well functioning electronic gadget.
- Students should ensure proper and sufficient Internet connectivity for online exams.
- The question papers will be sent as forms, which will have Multiple Choice Questions. You have already attempted these types of questions in the mock tests. Follow the same method.
- Do not practise any unfair means because the examination is in a proctored mode. A low trust index will affect your scores.
- **Do not tamper with the set up and other information on the page.** Click the right answers.
- You will receive the examination link on your registered email address. It is a unique link and must not be shared with anyone. Use the same email id, which you have registered.
- **Utilize exam time properly and systematically**
- Log in at the given time (5 min. before commencement of examination)
- You have to submit your paper **within one hour**. So submit the paper at least a minute or two before the time ends. The paper has to be **actually submitted** by you. It will not be submitted automatically.
- In case of any problem, immediately contact the Head of your Department or concerned subject teacher or the help desk numbers provided on our College website.

Wish you all the Best! Take care. Stay safe.

Dr. Mrs. A. S. Kulkarni
